Electric boat made in Italy

100% recyclable hull

Intuitive joystick drive

Self-draining

Optional solar roof

GOGO Boats are innovative electric and solar boats, conceived, designed and built in Italy by GardaSolar. Silent, sustainable and recyclable, they can travel anywhere in total respect for the environment. Their attractive look and highly technological components make them the electric boats of the future.

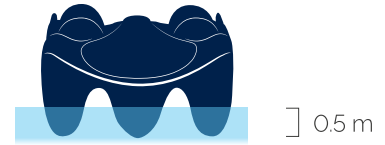

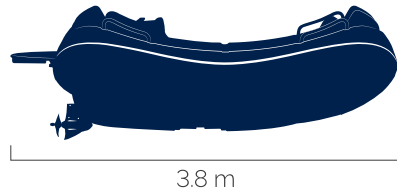

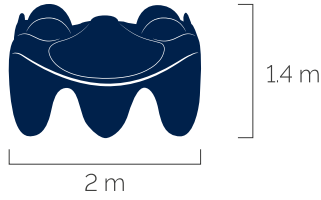

Ease of use is also part of our design values: every GOGO Boat is controlled with a joystick that makes navigation extremely simple and pleasant. GOGO 6 is our 6-seater electric boat, spacious and comfortable to make every trip special, as well as sustainable.

green, fun & tech
